FLIP CARDS

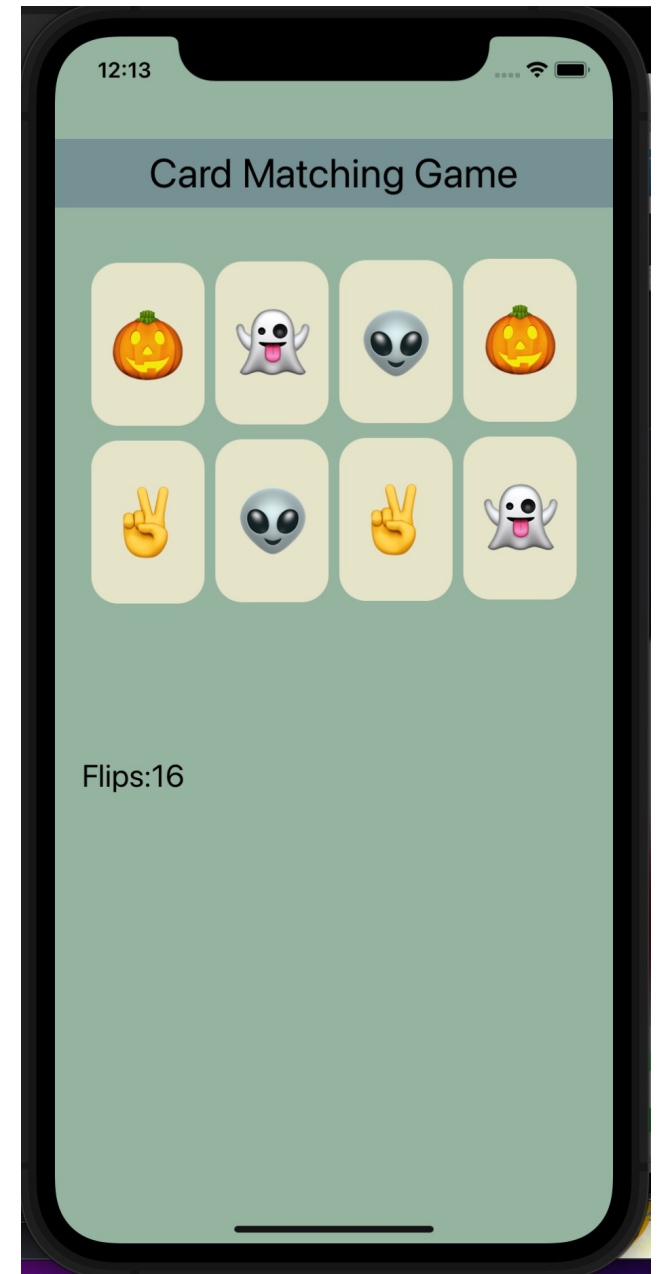

iOS App development

Flipping cards

- UI
 - Color: Pick one of the color palette from color hunt (or other websites) for your UI elements
 - <https://colorhunt.co/>
 - 2 Labels: App title and flip count
 - FlipCount label
 - 8 Buttons: 4 pairs of emojis
 - Each card should be able to flip
 - Count how many times cards are flipped

color palette

Code update

```
let labelText = sender.titleLabel!.text!
```

```
if let test = sender.currentTitle  
{
```

```
    print("not nil \ \(test)")
```

```
}
```

```
else{
```

```
    sender.setTitle(labelText, for: UIControl.State.normal)
```

```
}
```

```
print(labelText)
```
